Need hard-to-find or obsolete parts? Our extensive library of 50,000 drawings covers 100,000 parts from most major manufacturers. Drawings accurately document dimensions, materials, special processes, and quality requirements.

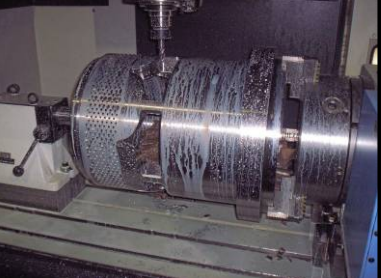

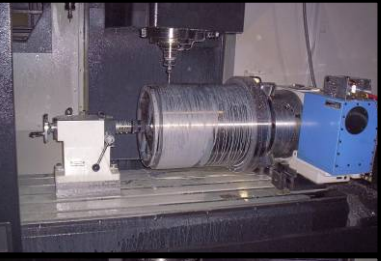

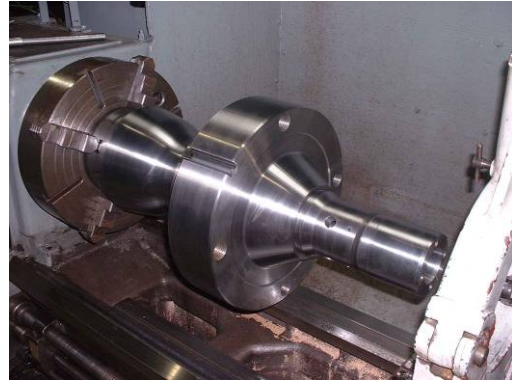

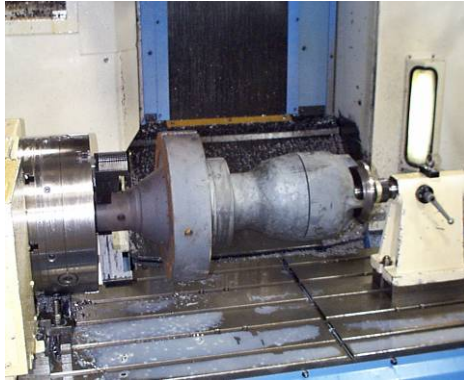

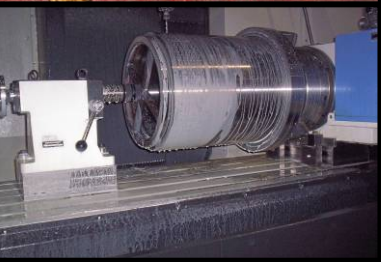

Count on us! The power industry has relied on our control valve parts for more than 40 years. Our genuine Gem-Trim parts meet or exceed the quality of original manufacturers' parts and are completely interchangeable in form, fit and function.

We inspect all Gem-Trim parts to verify compliance with drawings and work orders. All Gem-Trim parts are etched with part number, material, work order number, and customer stock number to ensure traceability.
